

9. Accept the default settings and click Next:

The dialog box is titled "Certificate Enrollment". It has a "Custom request" section. Below the title, it says "Chose an option from the list below and configure the certificate options as required." There is a "Template:" label followed by a dropdown menu showing "(No template) CNG key". Below the dropdown is a checkbox labeled "Suppress default extensions" which is unchecked. There is a "Request format:" label followed by two radio buttons: "PKCS #10" (which is selected) and "CMC". At the bottom, there is a note: "Note: Key archival is not available for certificates based on a custom certificate request, even when this option is specified in the certificate template." At the bottom right, there are "Next" and "Cancel" buttons.

10. Expand the Details by clicking the arrow (circled in red) and then click Properties:

The dialog box is titled "Certificate Enrollment". It has a "Certificate Information" section. Below the title, it says "Click Next to use the options already selected for this template, or click Details to customize the certificate request, and then click Next." There is a checkbox labeled "Custom request" which is checked. To the right of the checkbox is a status icon and the text "STATUS: Available". To the right of the status is a "Details" label with a small upward-pointing arrow, which is circled in red. Below the checkbox, there is a text area with the following text: "The following options describe the uses and validity period that apply to this type of certificate:", "Key usage:", "Application policies:", and "Validity period (days):". At the bottom right of the text area, there is a "Properties" button. At the bottom of the dialog box, there are "Next" and "Cancel" buttons.
